

PLS-PLUS

LAME CIRCOLARI HM SPECIALI E GRANDI DIAMETRI

Lame circolari in metallo duro con dimensioni e geometrie di taglio idonee per applicazioni speciali e tagli a misura, utilizzabili su segatrici automatiche e centri di lavoro per tagli su pvc, materie plastiche morbide e dure di varie sezioni (lastre, tubi, pieni e profilati), bobine di film e bobine di carta.

SPECIAL TCT CIRCULAR SAW BLADES AND BIG DIAMETER

Tct circular saw blades with dimensions and cutting geometries suitable for special applications and custom-made cuts, useful on automatic sawing machines and working centres for cutting on pvc, soft and hard plastic materials of various sections (sheets, tubes, solids and profiles), film and paper spools.
